

MCT

**MOTORIZED
CONCEALED TRACK**

Seamless concealed appearance.

The Art of Invisible Performance: MCT System

Where innovation disappears into the ceiling, leaving only elegance and flawless function.

The MCT (Motorized Concealed Track) System is engineered not to be seen. It is the definitive solution for minimalist interiors, integrating seamlessly into modern architecture to create pristine, uninterrupted lines and a perfectly finished ceiling.

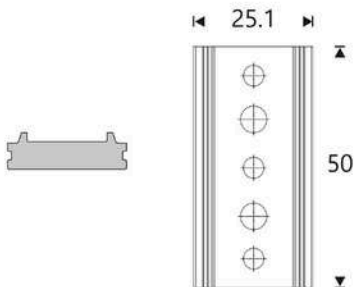

-
- 1-CTR-1 Concealed Track Receiver: Seamless integration with ceiling steel structure
 - 2-CDPR-2A/28 Concealed Drive Pulley Receiver: Enable Somfy motorized driving, compatible with other motors
 - 3-SCB-3 Slide Concealed Bracket: Direct and secure track fixation
 - 4-PSP-4 Protective Silent Pad: Edge protection and scratch prevention
 - 5-CTRj-5 Concealed Track Receiver Joiner: Supports long-distance continuous operation

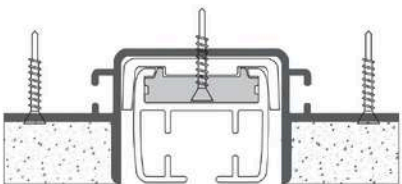

CTR-1-Concealed Track Receiver

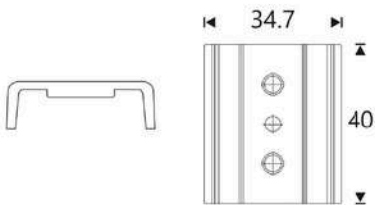

SCB-3-Slide Concealed Bracket

Fixing of Somfy Concealed Track

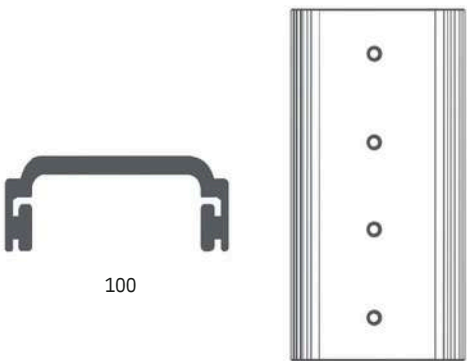

PSP-4- Protective Silent Pad

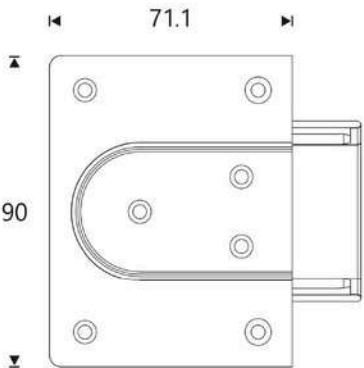

Somfy Motorised Track

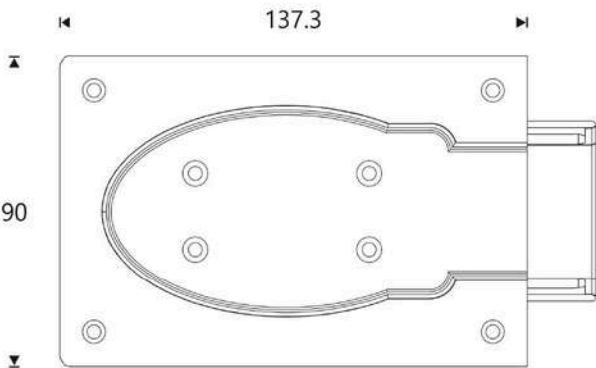

CTRJ-5-Concealed Track Receiver Joiner

CDPR-2B Somfy-Mini Drive Pulley Receiver

CDPR-2A Somfy-Concealed Drive Pulley Receiver

Seamless By Design

MCT

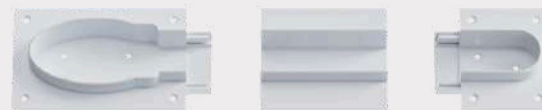

Motorised Concealed Track

Where Silent Technology Meets Modern Design.

1. CTR-1 aluminum profile fixed with ceiling steel structure.
2. After ceiling finishing, cavity is ready for curtain track
3. Track fixed with SCB-3 Slide Concealed Bracket
4. PSP-4 Protective Pad used during screw fixing to shield edges
5. PSP-4 Silent Pad prevents friction and ensures silent operation.
6. Motorised option: CDPR-2A Somfy Receiver or CDPR-2B Mini Receiver
7. Long runs supported by CTRJ-5 Joiner

Result: a silent, seamless, and modern concealed track system

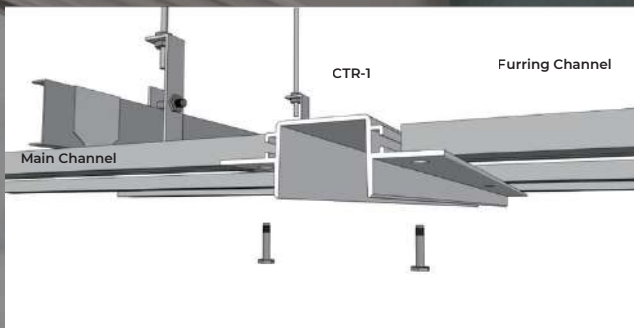

**Engineered to suit GCC
construction methods (concrete
slabs with gypsum ceilings)**

**Easy installation for
gypsum ceilings.**

**Seamless
concealed
appearance**

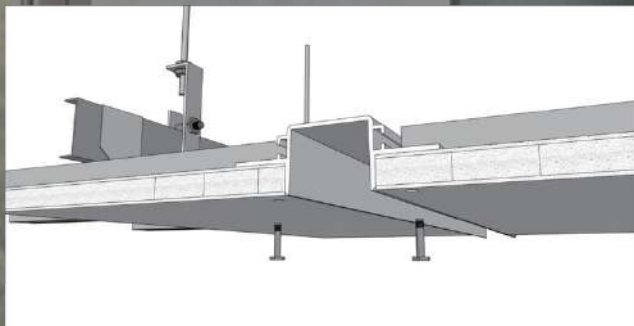

**Silent and
smooth
operation.**

**Competitive
pricing
compared to
imported
European
solutions**

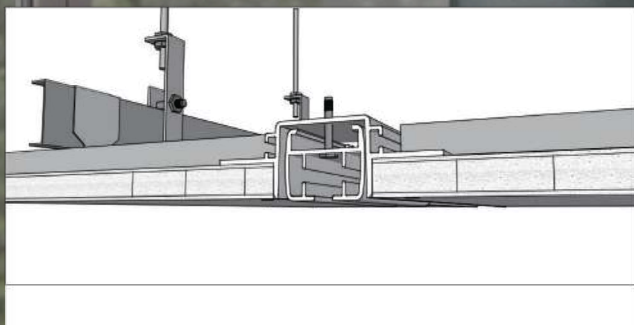

Step 1:

CTR-1 Aluminum Profile Fixed With Furring Channelsteel Structure.

Step 2:

After Ceiling Finishing, Cavity is Ready For Curtain Track.

Step 3:

- > Track Fixed with SCB-3 Slide Concealed Bracket.
- > PSP-4 Protective Pad used During Screw Fixing to Shield Edges.
- > PSP-4 Silent Pad Prevents Friction and Ensures silent Operation.
- > Motorised Option: CDPR-2A Somfy Receiver or CDPR-2B Mini Receiver.
- > Long Runs Supported by CTRJ-5 Joiner.
